

MOUNTING THE PANEL

(P.1)

1. Attach the graphic onto the panel strip by removing each time a few inches of the protective liner of the tape.

2. Align the graphic with the strip and press the graphic firmly on the strip.

3. Repeat the above steps at the back of the graphic with the security tape. Press firmly.

4. Repeat steps 1 to 3 for bottom of the graphic.
5. Slide the top of the graphic into the top profile and secure with a piece of tape.

MOUNTING THE PANEL

(P.2)

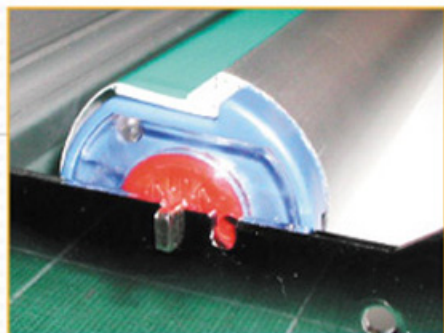

6. Open the cover by unscrewing at both ends with an allen key and take out the internal roller.

7. Slide the bottom of the graphic into the slot of the roller.

8. Return the roller with graphic into the base. Let the entire graphic lay outside the base. Close the cover and screw at both ends.

CAUTION:Note the ↑ up sign.

9. Push the graphic forward slightly to activate the spring system. Let the graphic retract into the system slowly.

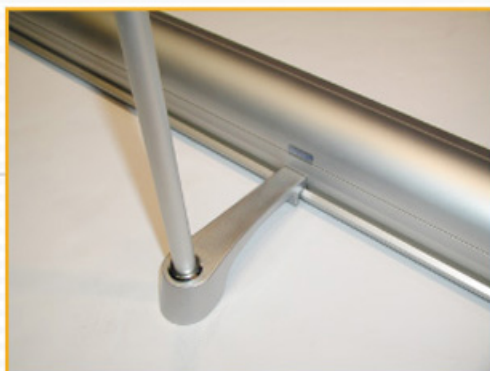

SETUP INSTRUCTION

1. Unfold the 3-parted pole.

2. Lock the foot onto the slot of the base by lifting up the base. Insert the pole onto the cup of the foot.

3. Pull up the panel and position the plastic end tip of the pole into the profile.
